Quick Start Guide

Before you begin

Before you get started, make sure your Ooma device is working with a hardwired Ethernet connection. Then find a convenient place to put your Ooma device. It should be centrally located in your home or office! You may now disconnect the hardwired Ethernet cable connecting your Ooma device to your modem or router. You’re free to move your Ooma device to a more convenient location, if you wish.

The Ooma Wireless + Bluetooth Adapter enables your Ooma Telo® or Ooma Office Base Station to connect to the Internet wirelessly using your Wi-Fi network. This guide goes by your side to install your device into any Ethernet port already located in your home or office and have your Ooma device signal along with the USB function to use the function you want to place the Telo outside your home. When you normally charge your cell phone.

Step 1

Install the Adapter

Connect a computer to your Ooma device

Step 2

Configure wireless settings

Connect your Bluetooth headset

NOTE:

Bluetooth functionality is not supported on Ooma Office Base Station devices.

NOTE:

Bluetooth and pair your Bluetooth devices.

**Troubleshooting**

- **Wi-Fi access, try these corrective steps:**
  - Move the Ooma device closer to your Wi-Fi access point to rescan.
  - Try a hardwired Ethernet connection to your router or access point to make sure it is scanning for wireless networks and reconfigure your wireless network instead.
  - Check the signal quality on the Wireless + Bluetooth Adapter, basic safety precautions should always be followed to reduce the risk of fire, electric shock, or personal injury. Always read and follow the equipment manufacturer's instructions for the Ooma product.
  - Consult the dealer or an experienced radio/TV professional for help in determining whether this equipment is causing interference.
  - Increase the separation between the equipment and the device.
  - Increase the distance between the device and the device.
  - Try connecting the device to an outlet on a circuit different from that to which the device is connected.
  - Consult the dealer or an experienced radio/TV professional for help.
