Ooma®
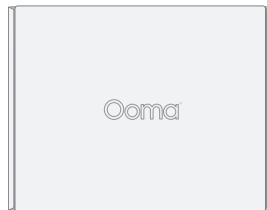

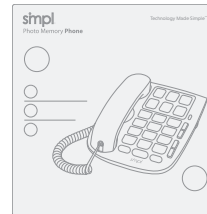

Family Phone Bundle Setup Instructions

There are two boxes in front of you:
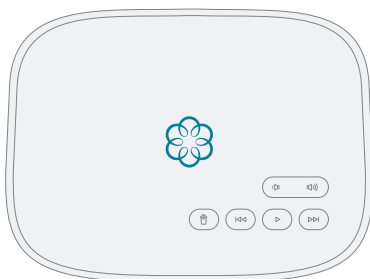

| STEP 1 | Activate your Ooma phone service |

Unbox the Ooma Telo **A** and activate your service by visiting **ooma.com/activate**. Refer to the included quick start guide for detailed instructions.

Wait until LED on the center of your Telo is solid blue
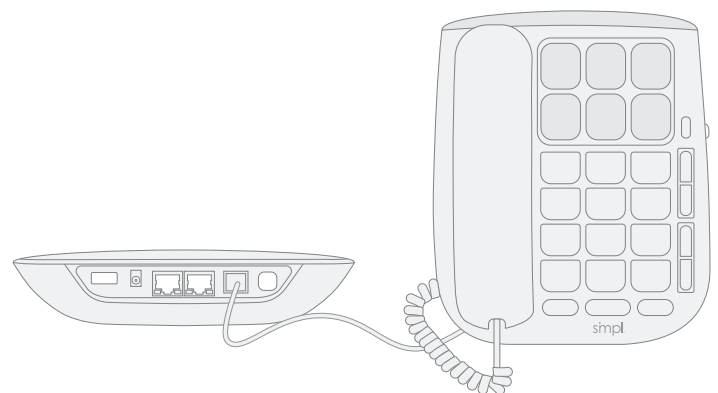

(may take up to 30 minutes)

| STEP 2 | Connect the SMPL phone to the Ooma Telo |

Unbox the SMPL phone **B** and connect Ooma Telo to the phone in one of the two ways:
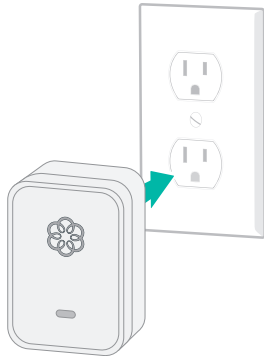

■ **Option A: Phone is near modem/router**

If your Internet modem/router is in the same room, where you plan on placing the phone

Connect SMPL phone to Telo via the telephone cord
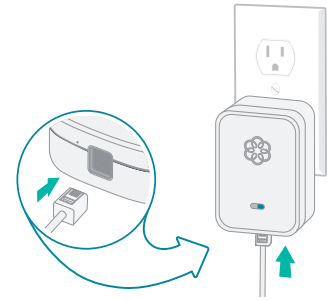

■ **Option B:** Phone is not near modem/router

If your Internet modem/router is in a different room from where you plan on placing the phone, you will need to use Linx
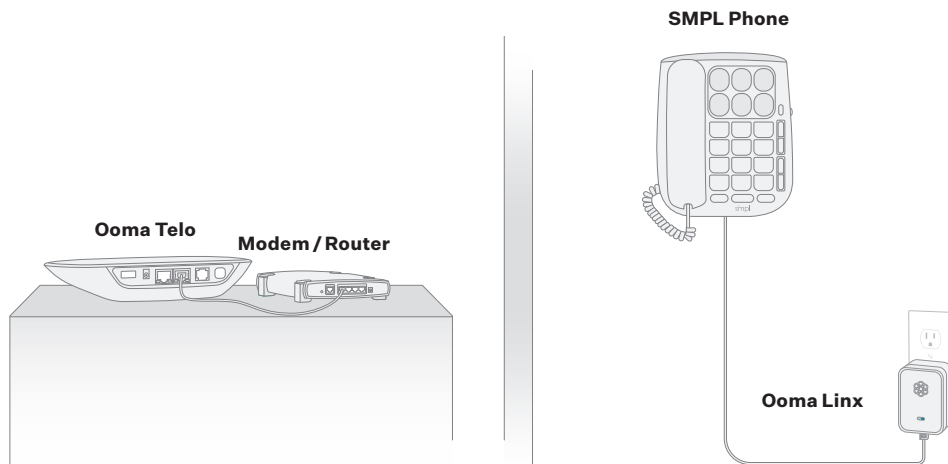

b-1
Plug Linx to the
power source

b-2
Pair Linx with Telo by pressing the Page
button on the Telo for 3 seconds

b-3
Connect SMPL phone with Linx
via the telephone cord

SMPL Phone

Ooma Telo   **Modem / Router**

Ooma Linx

b-4
Telo, modem / router, SMPL phone, and Linx setup

STEP 3 Start making calls!

■ Ooma service comes with many additional functions, such as a block list, 911 alerts to notify loved ones, voicemail forwarding, enhanced Caller-ID and more (visit **ooma.com/family-phone-bundle** for additional information)

■ Access call history, voicemails, and advanced settings at **my.ooma.com** on your computer

■ Download the Ooma Home Phone app on your iOS or Android device to make calls and check voicemails on the go
